Visit www.closetsandmore and read through their extensive closet design options. Each one will help you keep what matters! 

Closetsandmore Maple with Shaker Style Doors and Drawers

Dryerbox

Take a look behind your dryer. Chances are the back of it is about five or six inches away from the wall and the vent hose resembles a snake. The Dryerbox from In-O-Vate Technologies, Inc. offers a remarkably simple, inexpensive and effective solution. The attractive metal receptacle is now UL Classified for a one hour wall. To-date, over 650,000 Dryerbox units are installed in homes across the country. The popularity of using a receptacle to house and collect the flex dryer hose in the cell of the wall has grown remarkably over the past several years. "As builders, architects, inspectors, subcontractors and homeowners see the product for themselves; they are asking why this wasn't available sooner. It really is a common sense type of product." For more information about the Dryerbox visit: www.dryerbox.com or call 888-443-7937
